Mike,

Here's EPA's statement in response to the demonstrators who were at the Academy this morning. -- Terri

EPA is working diligently to understand the situation in Dimock and address residents' concerns. We believe that the information provided to us by the residents deserves further review and we have been actively visiting homes to learn more. We are in the process of determining next steps and reviewing the information we have in hand as quickly as possible so that we are able to provide some answers to affected residents. We hope to share more information soon with residents, the State and Cabot.
